Commentaries over the quality of execution obtained and over the broker selection for certain geographical regions

In the case of a transaction carried out at the customer's request (Request for quote), ODDO BHF SCA Corporates and Markets proposes a price that the customer chooses to accept or not.

The order may be executed in ODDO BHF Systematic Internaliser or in a MTF or in a regulated market through selected brokers or ODDO BHF's memberships.

There has been a significant increase in the number of orders received from Retail banks and executed on regulated markets. This situation explains the modification occurred in the proportion of orders executed on regulated markets compared to 2019 report.
